

IMAGING FOR WOMEN 3D/4D AND GENDER DETERMINATION SONOGRAMS

Instructions and Consent

Appointments are scheduled during regular office hours @ 11:30am, M, T, Th & Fri.

This is not a diagnostic scan. No documentation of images is presented for interpretation and it is not being used for medical decisions. It is NOT covered by insurance.

The 3D/4D sonogram uses the similar sound wave principles as the 2D sonogram. At this time, no confirmed biological effects have been reported but the possibilities exist that effects may be identified in the future. A.I.U.M 2003.

Imaging for Women makes no guarantees regarding the quality of the images or the accuracy of gender determination. The quality of the sonogram is dependent on the position of the baby, amount of amniotic fluid and the size of the mother.

3D/4D sonograms:

1. The best time for 3D/4D imaging is 28-32 weeks.
2. Fluid level is critical to the quality of the scan. Please drink 1 gallon of water every day for 2 weeks prior to appointment to obtain the best image. Please drink 8oz. of apple juice 30 minutes prior to your appointment time. If fluid level is inadequate or baby is face down, you will be asked to reschedule. Please plan accordingly.
3. The cost of the session is \$150.00 (cash or check ONLY) and includes:
 - 15-20 minute session with still images recorded and sent via email.
 - Several black and white images recorded on thermal paper.

2D gender determination:

- Gender determination no earlier than 16 weeks. The cost of this session is \$50.00 (cash or check ONLY).
- 5-10 minute session to determine gender (2D ONLY)
- Several black and white images recorded on thermal paper.

****NO REFUNDS – 2nd ATTEMPT FEE \$25****

Payment Agreement and Consent

I understand that this procedure is NOT covered by my insurance plan and I agree to pay for this service in full. I further understand that this is not a diagnostic sonogram and is not being used for medical decision making. Images are solely for the patient's personal use. Patient assumes all risk for this entertainment sonogram.
